

William H Hoey

“a wee bit of everything”

My name is William Hudghton Hoey, my friends call me Willie.

I have been painting and sketching for a number of years in oils and watercolors, and now experimenting with a plastic paper called Yupo, which you will see in some of my work. I can take commission work and have Giclee prints made of any work sold. All my work on display are watercolor originals, plus a few oils. I can also do commissioned work, have gallery at my home in Enfield

I studied Technical Illustration at Glasgow School of Art in Scotland, the place of my birth (but you will have guessed that when I talk to you.) where I was employed as a technical illustrator for engineering companies, before immigrating to the USA.

I am a member of the Tobacco Valley Artists Association located in Enfield, and the newly formed CRVA (Connecticut River Valley Artists) and a member of the Connecticut watercolor Society

I have entered lots of local shows, Juried shows, won awards, and prizes for my work. Entered art shows around the New England.
